

Word has been received in the city that Private John Manion, brother of Dr. Manion, M.P., and Joseph Manion, arrived at St. John yesterday and is on his way home. John Manion left here eighteen months ago with a railway construction battalion, and had seen considerable service in France. At the time the armistice was signed, unfortunately, he was in hospital in England suffering from a slight illness. It is expected that he will arrive in the city about Sunday.
