

union depot.

---

Gunner George Walker of the anti-aircraft artillery, son of Mr. and Mrs. R. E. Walker, has arrived home from overseas after four and a half years' service with the C.E.F. He was constantly on service and escaped unwounded until October 28 of 1918, when he was slightly wounded, but it was when in hospital he was more dangerously injured and gassed by an attack of German airplanes.
