

---

A request has been passed by the great war veterans' association and transmitted to the city council, asking that all taxes on property of soldiers, that have accumulated while they were overseas, be remitted and that exemption from all taxes, both income and property, be granted to all returned soldiers for a period of ten years. The proposal will be duly submitted to the city council to be considered by the aldermen at an early meeting. The request is a somewhat wide one and it is considered doubtful whether it can be complied with without seriously affecting the city's interests.
